

# APPROVED MEDIA GUIDE

## PRINTING VERSATILITY!

The KIP Color 80 supports a broad selection of media types for specific applications. Compatible media includes standard bond and photo gloss paper; technical and graphic vellums and films; banner material; billboard blueback and self-adhesive substrates. In addition, the KIP Color 80 system handles extended paper weights from 18 to 40lb. bond and 3 to 4mil film to further extend printing possibilities.

## STANDARD MEDIA - BOND PAPER

Bond paper is widely accepted as the standard media for wide format printers. Color prints on bond paper can be visually enhanced by processes such as lamination and AccuShield coating.

| Media Type  | Approved Manufacturer        | Item Number |
|---|------------------------------|-------------|
| Bond / 20 lb.                                       | National-Azon, Dietzgen, Océ | Various     |
| Bond / 24 lb.                                       | National-Azon, Dietzgen, Océ | Various     |
| Bond / 32 lb.                                       | National-Azon                | 032BX36150  |
| Bond / 40 lb.                                       | National-Azon                | KIP8040     |
| Translucent Bond / 18 lb.                           | National-Azon, Dietzgen, Océ | Various     |
| Indoor / Outdoor Waterproof Bond – Rite in the Rain | RiteInTheRain.com            | WFR-36-500  |

## STANDARD MEDIA - FILM

Double Matte Film is a clear, polyester base wide format print media with a matte surface on both sides. It is an exceptionally strong, durable media that offers the dimensional stability needed for long term use.

| Media Type                                  | Approved Manufacturer | Item Number |
|---|-----------------------|-------------|
| Double Matte / 3 mil for Backlight Displays | Océ, National-Azon    | Various     |
| Double Matte / 4 mil                        | Océ, National-Azon    | Various     |
| Clear Film / 4 mil                          | Océ                   | 44-540      |

## SPECIALTY MEDIA - BANNER MATERIALS

Banner medias are particularly suitable for applications requiring high opacity for perfect color brilliance. KIP Digital Banner Media is a totally synthetic, white opaque, single layer micro-porous printing material that behaves more like paper than plastic. KIP Blueback media features a blue-backing to ensure no image bleed through when installed over existing prints. Indoor/Outdoor Weather Proof Film provides extreme durability and visual similarity to bright white paper, making it perfect for any project.

| Media Type                                       | Approved Manufacturer | Item Number                            |
|--|-----------------------|--|
| Indoor /Outdoor Weather Proof Film               | National-Azon         | 04WF                                   |
| Digital Banner Media / 10 mil (4.5oz) - 36"x200' | <b>KIP</b>            | 36": KC80BAN36200<br>18": KC80BAN18200 |
| Blueback / 32 lb. 36" x 328'                     | <b>KIP</b>            | KC80BLUB3236328                        |

## SPECIALTY MEDIA - GLOSS

Hi-Gloss media helps to produce vivid, full color wide format prints. Due to the glossy finish, images display an extremely wide color gamut, making this media appropriate for a wide range of commercial and point of purchase applications.

| Media Type                   | Approved Manufacturer | Item Number   |
|------------------------------|-----------------------|---------------|
| Hi-Gloss / 32 lb. 36" x 300' | <b>KIP</b>            | KC80GL3236295 |

## SPECIALTY MEDIA - ADHESIVE

White opacity and clear translucent varieties are suitable for mounting on a range of substrates including painted walls and glass. Due to high mechanical stability and tear-resistance, self-adhesive media provides increased durability.

| Media Type   | Approved Manufacturer | Item Number    |
|--|-----------------------|----------------|
| Clear Adhesive / 6mil<br>(2mil with a 4 mil carrier) 36" x 164'        | <b>KIP</b>            | KC80ADCLR FILM |
| White Opaque Adhesive / 6mil<br>(2mil with a 4 mil carrier) 36" x 164' | <b>KIP</b>            | KC80ADOPQ FILM |

## BRIGHT FLUORESCENT BOND PAPER

This colored paper is among the most vibrant attention grabbing media available on the market. In fact, Fluorescents boast 3 to 4 times more visual intensity than other non-coated brightly colored papers, and since the KIP Color 80 is a dry toner based printer, the resulting images are opaque. This eye-popping media is used under normal or low light conditions.

| Media Type                                    | Approved Manufacturer | Item Number |
|---|-----------------------|-------------|
| Fluorescent Yellow 24 lb. weight – 36" x 500' | National-Azon         | 8024FY      |
| Fluorescent Pink 24 lb. weight – 36" x 500'   | National-Azon         | 8024FP      |
| Fluorescent Orange 24 lb. weight – 36" x 500' | National-Azon         | 8024FO      |
| Fluorescent Blue 24 lb. weight – 36" x 500'   | National-Azon         | 8024FB      |
